Founded in 1997, Vaccinex is a privately owned biotechnology company developing treatments that harness the power of the body's immune system to fight cancer and other diseases. Vaccinex's novel core technology represents a significant advance in gene discovery technology as it permits the efficient selection of individual genes associated with specific biological processes, even in circumstances in which other methods fail. This technology is proprietary to Vaccinex and offers diverse applications including: antigen identification, human monoclonal antibody ("MAb") selection, and functional gene discovery. Vaccinex is leveraging these technologies to develop its own antibody and vaccine-based therapeutics and has also begun marketing its Human Antibody Selection Technology to other biopharmaceutical companies with their own proprietary targets.

Recent Publications by Vaccinex Incorporated:

- [C35 \(C17orf37\) is a novel tumor biomarker abundantly expressed in breast cancer.](#)
Identification of shared tumor-specific targets is useful in developing... 16th February, 2007

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
