Inflazyme Pharmaceuticals is a biopharmaceutical company engaged in the discovery, development and commercialization of innovative therapies for the treatment of respiratory and inflammatory diseases. Our core focus is medicinal chemistry based, orally active, small molecules aimed at treating unmet medical needs.

Our most advanced product, IPL512,602, is on track to enter a phase IIb clinical study by Q1'06 for the treatment of persistent asthma. Our second product, IPL455,903 (also known as HT0712), is scheduled to enter a Phase IIa clinical study by Q1'06. The product is partnered with Helicon Therapeutics, Inc., a biotechnology company specializing in learning and memory disorders.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
