Germany

Berlin - a city with a heart for new scientific developments, the birthplace of German VAD (ventricular assist device) technology. Without doubt, one of the pioneering achievements in this city was a large-scale research project "Devices for artificial assistance and substitution of the human heart", which was launched 30 years ago at the Freie Universität Berlin.

Ever since the successful introduction of the extracorporeal VAD Berlin Heart EXCOR almost 15 years ago, we have been continuously working to improve this system. In many hundreds of applications, it has already proved its worth the world over.

In close co-operation with the German Heart Institute Berlin (DHZB - Deutsches Herzzentrum Berlin), we have been developing implantable heart support systems as well as the Excor mobile driving unit for the extracorporeal VAD system Berlin Heart EXCOR.

We are the VAD Specialists.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
