The Center at Allergy Associates Medical Group was established in 1986 to conduct clinical trials of new medications in the area of allergy and asthma and related fields.

These trials are carried out under Food and Drug Administration guidelines. We are pleased to offer such studies to the children and adults of San Diego. New medications, devices, and reformulations of existing medications are all areas of our clinical research studies.

Our staff of experienced coordinators are dedicated to carrying out these studies. Subjects and their needs are always first in our minds. We seek to meet and exceed the stringent federal standards required to perform medical research

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
