Abgent develops powerful tools to profile posttranslational modifications related to cellular function and disease. Abgent antibodies offer the most extensive coverage targeting protein kinases, phosphatases, methyl and acetyl transferases, ubiquitin and SUMO, glycosylases and other protein modification enzymes. Our mission is to accelerate research and discovery by targeting post-translational modifications that dynamically regulate protein function, and to thereby accelerate understanding of the complex path leading from cell signaling to pathology.

Abgent's innovative products and custom services for the study of proteomic modifications rank us as a selected supplier in Nature's 2003 Antibody Technology and 2004 Drug Discovery Features and in The Scientist's 2003 Cell Signaling Feature. Our Strengths

Innovation of exclusive products for a broad range of proteomic and life science applications.

A demonstrated commitment to rapid service at competitive prices, with superior quality. Flexible to unique customer requirements.

Modern facilities and equipment for peptide synthesis, antibody development, protein expression/purification, and assay development.

Project status and data reports are monitored by our exclusive in-house custom service database tracking system.

Skilled biotechnology workforce with interdisciplinary expertise.

Collaborations with leading scientists, institutions, and companies

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service

- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
