India

In the context of exciting growth in the country, leading Indian biotechnology companies recognize the need for a forum that would represent India's unique Biotech environment. A forum that would generate a symbiotic interface between the industry, the government, academic and research bodies, and domestic and international investors. ABLE, the Association of Biotechnology Led Enterprises was the natural result of this need and is envisaged as the collective face of the Indian Biotech industry.

ABLE's Objectives

Accelerating the pace of Biotechnology in India by enabling strategic alliances between researchers, the government and the global Biotech industry

Showcasing breakthrough technologies and cutting-edge Biotech initiatives that will take the Indian Biotech sector to new heights

Partnering with the government in its Biotech endeavors towards a more conducive environment

Forging stronger links between academia and Industry

Encouraging global investment in India's rapidly expanding Biotechnology sector, facilitating proactive collaborations and partnerships

Inducting bodies that represent Indian industry as well as other national and international organizations as Affiliate Members

Initiating dialogue through workshops, conferences and other forums between society, entrepreneurs and scientists.

Presenting and disseminating state-of-the-art information regarding the industry to policymakers, investors, academicians and the media.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
