Each waking day, Agropur cooperative responds to the call of some 4,060 dairy farmers who rely on this organization, which they jointly own, to enhance the fruit of their labour. Over 1.8 billion litres of milk are processed annually in 21 plants, one in the United States and the others in four Canadian provinces. Generating sales of over 2 billion dollars, the resulting products grace the tables of thousands of Canadians from coast to coast. But before these products reach their tables, 3,900 employees and many contract agents assigned to milk collection and distribution combine their efforts and expertise to ensure that the final product meets all expectations. For nearly 70 years, Agropur cooperative has been fine-tuning its art to continually better its know-how and its tasty offerings to consumers

### Press Releases on Agropur cooperative:

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
