Allergy and Asthma Associates is one of the oldest allergy-asthma practices in the Pacific Northwest starting in 1938 by James Stroh, Sr. Drs. James Stroh, Jr and Rick Lane Johnson joined Dr. Stroh in a Seattle office in the early 1970s. The initial contingent has recently retired; now the practice includes Drs. Gary Ayars, Charles Jackson, and D. Robert Webb, who practice in two primary locations: Bellevue and Kirkland, Washington. The group is also active in four satellite locations including Monroe and Yakima in Washington State, and in Juneau and Ketchikan, Alaska.

Started years ago by the senior Dr. Stroh, Clinical Research has continued to varying degrees ever since. All our physicians are co-investigators in current studies and all are current primary investigators. Dr. D. Robert Webb brought special research experience and interest to the practice in 1989. In recent years this activity has varied in size and employs two research coordinators who facilitate approximately 8 to 15 separate studies involving about 300 study subjects annually. Sponsoring institutions have recently included Altana, AstraZeneca, Aventis, Glaxo SmithKline, Genentech, Hoffmann LaRoche, Novartis, Sepracor, and Schering Plough Research Institute.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
