AMC Cancer Research Foundation at the University of Colorado Cancer Center (UCCC), where we pursue new and better ways to prevent and treat cancer. As the only cancer center in the Rocky Mountain region to receive designation as a comprehensive cancer center by the National Cancer Institute, UCCC has some of the nation's most respected researchers and physicians working together to end suffering from cancer. As recently as 10 years ago, this may have seemed like an impossible dream, but as a result of newer drugs and treatments, researchers predict that cancer is becoming a chronic, manageable condition. Plus, through better screening and prevention techniques, cancer is being diagnosed earlier, when it is most curable. For the first time ever, there are more than 10 million cancer survivors in America!

With hope so close to being a reality, UCCC and AMC Cancer Research Foundation have made an unprecedented step of becoming formally affiliated. AMC and UCCC researchers are now working hand-in-hand to maximize the research effort to prevent and control cancer. The AMC Cancer Research Foundation is pulling out all the stops to regain its national presence as a supporting research foundation. To become one of the PREMIER comprehensive cancer research institutions in the United States, the UCCC, through the AMC Foundation, must excel in raising community philanthropic support.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
