AMR is a privately held pharmaceutical market research firm headquartered in suburban Philadelphia, Pennsylvania USA. We have been serving the hospital market intelligence needs of the pharmaceutical & diagnostic imaging industries since 1988. With offices in Philadelphia and Brussels and affiliates in Tokyo and Shanghai, AMR conducts syndicated hospital drug use audits in the United States, Italy, Germany, United Kingdom, France, Spain, Japan and China. Our research includes clinical inpatient databases that directly link drug with indication/procedure, formulary & stocking status tracking studies, drug purchasing audits, and procedure volume audits. Our veteran staff of healthcare professionals and medical market researchers provide our clients with a powerful combination of resources rarely seen in our industry: precision, database flexibility, clarity of presentation and clinical literacy. AMR routinely abstracts medical data from hospitals and other health care facilities throughout the United States, Europe, Japan and China. The sample data are projected to national levels in order to monitor trends in healthcare markets. Our research is conducted with the highest professional standards and a total commitment to patient and institutional confidentiality. Under no circumstances do we collect or report patient names or identifiers. Under no circumstances do we disclose the identity of participating health care facilities. Our market research is intended solely to estimate national trends in drug usage, medical procedure volumes and disease prevalence.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
