Argus Biosciences was founded in 2003 by Dr. David Whyte. Dr. Whyte received his Ph.D. in Molecular Biology from the University of California, San Francisco, and has a Bachelors of Science degree in Chemistry from the University of Michigan, Ann Arbor. After receiving his doctorate, Dr. Whyte worked as a Principal Scientist at the Schering Plough Research Institute in Kenilworth, New Jersey, and as Director of Molecular Technologies at SUGEN, South San Francisco, California.

Our focus is personalized DNA sequence analysis. In addition to offering sequence analysis of medically significant genes, we have recently added a suite of products in the area of molecular genealogy.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
