Asahi Kasei Corporation, with consolidated sales of US\$10 billion, provides innovative solutions based in chemistry and materials science to a diverse range of markets including fibers, chemicals, consumer products, housing, construction, electronics, and health care. On October 1, 2003, all core operations were transferred to seven wholly owned constituent corporations as autonomous operating business units. Asahi Kasei Corporation, as the parent company, functions as a holding company for group operations. An Independent Businesses Group not included in the constituent corporations provides group services

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
