Started by former employees of Digital Instruments (now Veeco), Asylum Research opened its doors in April, 1999 with no venture capital funding. We are a company dedicated to innovative instrumentation for nanoscience and nanotechnology, with over 200+ years combined AFM/SPM experience from our scientists, engineers and software developers. Asylum Research shipped its first product within six months of its founding. Our flagship product, the MFP-3D, represents next generation AFM technology today, with unprecedented precision and image clarity. Our instruments are used for a variety of nanoscience applications in material science, polymers, chemistry, biomaterials, and bioscience, including single molecule mechanical experiments on DNA, protein unfolding and polymer elasticity, as well as force measurements for biomaterials, chemical sensing, polymers, colloidal forces, adhesion and more. Asylum Research also distributes third party cantilevers from Olympus, Nanoworld/Nanosensors, and also supplies a variety of accessories for AFM/SPM. We are dedicated to providing the most technically advanced AFM for researchers that want to take their experiments to the next level.

Press Releases on Asylum Research:

[Diabetes Population to Double, Diabetes Costs to Nearly Triple, in 25 Years, New Study Shows](#)

27th November, 2009 National Changing Diabetes Program

PRINCETON, N.J., Nov. 27 /PRNewswire/ -- The diabetes population in the United States will almost double over the next 25 years and annual medical spending on the disease is projected to hit \$336

Pan-European Survey Reveals Concerning Rates of Chemotherapy-Induced Neutropenia	26th November, 2009		BRUSSELS, November 26 /PRNewswire/ -- The risk of neutropenic infections poses an additional threat to cancer patients undergoing chemotherapy, at a time when a patient's emotional and physical
Frost & Sullivan Award Underlines Cipla Medpro's Status as Company of the Year in the South African Generic Pharmaceutical Market	26th November, 2009	Frost & Sullivan	JOHANNESBURG, South Africa, Nov. 26 /PRNewswire/ -- The 2009 Frost & Sullivan South Africa Company of the Year Award in the Generic Pharmaceutical Market is presented to Cipla Medpro South Africa
FDA's Woodcock Discusses Pain Management and Drug Safety in Nov. 26, 2009 Issue of The New England Journal of Medicine	25th November, 2009	U.S. Food and Drug Administration	SILVER SPRING, Md., Nov. 25 /PRNewswire-USNewswire/ -- An article by Janet Woodcock, M.D., director of the FDA's Center for Drug Evaluation and Research, titled "A Difficult Balance - Pain
North Carolina-based Cnanoz Unveils NanoPure(TM) to Government Leaders in Hyderabad, India	25th November, 2009	Cnanoz Inc.	DURHAM, N.C., Nov. 25 /PRNewswire/ -- Research Triangle Park-based Cnanoz Inc. unveiled the first energy-efficient, single-treatment water purification system NanoPure(TM) developed from carbon

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
