AFSBIO distributes growth factors and antibodies, with a special emphasis on Insulin-like Growth Factor (IGFs) and IGF Binding Proteins (IGFBPs). Products that have been developed in house are biotinylated IGFs and western-ligand blotting kits for the detection of IGFBPs. In addition a range of reagents for research in infectious diseases and transcription are available. Custom assay development and performance and stability test for immunoassays are available on request.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
