Our main goal is to provide the English speaking Bioworld with reliable information about events, activities and the potential of biotechnology and biobusiness community of Central and Eastern Europe. On the other hand, we would like to foster the information flow in the opposite direction as well. By such a way we are contributing to the growth and development of the environment for cooperation and information exchange between the East and the West in biotechnology and biobusiness areas. We believe that easy access to information will breed fruitfully in life science and health care enterprises, commonly implemented by science and business communities.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
