Britannia Pharmaceuticals Limited, located in the South of England, is a niche pharmaceutical company specialising in products for diseases with orphan indications (small patient populations) which are normally not developed by larger pharmaceutical companies. It is our primary focus search for and develop pharmaceutical products for special patient groups, expanding our know-how in the disease areas our products serve, and to make these products available internationally.

The company has built its success and ability to develop active compounds into fully licensed pharmaceutical preparations, with particular expertise in clinical trials, formulation work, registration, marketing and sales. Our primary expertise is in the development of products for the areas of Parkinson's disease and opiate detoxification. We have been active with UK neurologists and geriatricians since 1981, starting with the marketing and development of the product Eldepryl (selegiline hydrochloride). These relationships helped us to identify the benefit of and need for apomorphine as a rescue treatment for Parkinson's disease sufferers, leading to the development of our APO-go products

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
