Brunswick Laboratories is an independent, full-service bio-analytical laboratory specializing in the science of Antioxidants and Oxidative Stress.

Brunswick Laboratories is recognized internationally by leading health research institutions and companies in the nutraceutical, pharmaceutical, food and cosmetic industries. We are a pioneer and a world leader in research and diagnostic services related to antioxidants and oxidative stress, and have earned a position of respect and trust based on the contributions we have made in this field.

Oxidative stress is the negative effect created in the body by "free radicals" and has been identified as a major factor in the progression of aging and disease. Antioxidants are known to counteract these damage-causing radicals.

To date, Brunswick Laboratories' ground-breaking research has resulted in major advancements in the knowledge of antioxidants. Our goal is to remain leaders in antioxidant and oxidative stress R&D, and to continue to provide innovative solutions to our customers.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
