Our mission is to continue to establish Biozyme as a world leader in the supply of high quality biochemicals to the medical diagnostics and healthcare industries through excellence in customer service. Celebrating our 30th anniversary this year, we specialise in the development and bulk manufacture of high purity enzymes and proteins. Biozyme's products are highly regarded by many of the world's leading in vitro diagnostic (IVD) kit manufacturers. Our current product range consists of approximately 80 enzymes, many of which are available in a variety of grades to suit particular applications. Biozyme's wealth of expertise is now being applied to the manufacture of certain enzymes to active pharmaceutical intermediate (API) status for incorporation into Biopharmaceuticals.

As a valued supplier to many blue chip companies, Biozyme prides itself in providing the highest possible standards of quality and customer service. The Quality Management Systems of our UK operation, which consists of two manufacturing facilities, have been certified as meeting the requirements of ISO 9002 by SGS Yarsley ICS Limited.

We also have a sales and marketing office based in San Diego, California and a world-wide network of distributors who work closely with our U.K. technical personnel. This ensures a rapid response to your enquiries and demonstrates our commitment to building and maintaining close relationships with both existing and new clients throughout the world

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
