CTCA is the home of integrative and compassionate cancer care. We never stop searching for and providing powerful and innovative therapies to heal the whole person, improve quality of life and restore hope. In short, Cancer Treatment Centers of America (CTCA) is committed to helping people overcome cancer. The best way we know how is by listening to our patients. By empowering and encouraging each patient to be part of the recovery process, we can better understand and serve patients' needs. With this mission, we have assembled high-quality professionals in oncology, tumor biology, immunology and other specialties who believe in the team approach. They not only search for new ways to conquer the disease, but listen and understand the individual concerns of every patient they treat. Patients deserve the right to have options. CTCA provides these options from a wide array of therapies. These include surgery, radiation, chemotherapy, immunotherapy, biological response modifier concepts, and many support therapies such as psychological, nutritional and spiritual counseling, and mind-body medicine.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's relate service indepth.

The annual cost is \$495.00 for established organizations and \$295.00 for organizations less than 12 months old.
