The Center for Carpal Tunnel Studies was established in 1993 in Paradise Valley, Arizona by Dr. Benjamin M. Sucher. Since its inception, the Center has treated thousands of individuals and is continually engaged in documentation of clinical findings. The patient pool consists of individuals referred by outside medical providers as well as large numbers of individuals who have seen, read, or heard of Dr. Sucher and/or the Center.

The Center for Carpal Tunnel Studies is actively addressing the need for comprehensive evaluation, differential diagnosis, non-invasive treatment alternatives and cost-containing management of Carpal Tunnel Syndrome (CTS) and other related upper extremity disorders. We have designed a comprehensive program that includes patient assessment, individualized treatment, and patient interactive exercises for symptom management. Our success is simply measured by clinical findings as well as patient response. The majority of patients realize rapid relief of symptoms and are markedly improved within one week.

Recent Publications by Center for Carpal Tunnel Studies:

- [Manipulative treatment of carpal tunnel syndrome: biomechanical and osteopathic intervention to increase the length of the transverse carpal ligament: part 2. Effect of sex differences and manipulative "priming".](#)

As a theoretical basis for treatment of carpal tunnel syndrome (CTS) and... 10th August, 2005

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast

service

- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
