ChemGen Corp. was founded in 1985 with the aim of exploring the industrial and agricultural applications of biotechnology. This differentiates ChemGen from most other biotechnology companies which are focused on human pharmaceutical applications.

ChemGen's headquarters in Gaithersburg, Maryland The company was established by a group of talented research scientists and engineers with strong technical and analytical skills. The objective of this founding group was to identify and develop a line of bio-products which ChemGen could commercialize and that would form the basis of the company's long-term success.

By late 1986, ChemGen had opened up a laboratory in the vicinity of Gaithersburg, Maryland, U.S.A. and had developed a thriving contract research business. Biotechnology R&D services were made available to large U.S., European and Japanese chemical and pharmaceutical companies. This work provided ChemGen personnel with exposure to many areas of industrial and agricultural biotechnology; the company's skills in the isolation of new microbial entities, biosynthesis pathway engineering and fermentation manufacturing blossomed. Several commercially important proprietary and patented bioprocesses were developed by ChemGen for its contract research clients.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast

service

- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
