CogState has developed powerfully simple cognitive tests. The company is founded on scientific excellence; over a third of the staff hold PhDs. Originally developed for aboriginal communities in Australia, the tests appear like a computer game, and are now marketed worldwide from offices in Australia, UK, Japan and the US, for the following applications. CogState supplies some of the world's largest pharmaceutical and functional-food companies with cognitive testing. Many choose CogState because they are the most rapid tests in the world. Pfizer, the US Centers for Disease Control and Prevention (CDC), and other customers have conducted 34 paid studies to date. CogState's corporate customers have combined annual sales of over \$160 billion.

CogSport is trusted by professional and elite athletes in 10 countries and 10 sports to help doctors make return to play decisions following concussions. It is mandatory for all UK jockeys and professional rugby players. Customers include Olympic and world champions.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership

username and password

- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
