Welcome to our new website. We are not just "another CRO."

In our case, CRO stands for "Contract Regulatory Organization."

Our specialties include cost effective CE Marking and Quality System / ISO 9000 certification programs, and FDA QSr (Quality System regulation) compliance programs, including the new Design Control Requirements. We also prepare 510(k) submissions, technical files, PMAs, design dossiers, and IDEs.

With partners and consultants in the USA, Canada and Europe, The CRO Group is uniquely qualified to handle virtually all your regulatory compliance and market access issues. Each partner and affiliate is qualified to handle general medical device and quality system issues such as labelling, risk analysis, and design and process validations. Then, for subspecialties such as clinical investigations, sterilization validations, dielectric withstand, or waste disposal, we rely on our partners and affiliates robust backgrounds with medical and pharmaceutical product manufacturers.

And by the way, we also provide "CRO" - contract research organization - related services for our clients, including clinical study design, protocol development, IRB/IEC approval submissions, clinical trial management and auditing, and preparation of reports to support submissions.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
