Our cardiovascular and thoracic surgeons, a nationally recognized team of experts, specialize in adult cardiac, thoracic, and vascular surgery at multiple locations throughout the Twin Cities.

Our four surgeons have over 70 years combined experience performing heart surgery (coronary bypasses and heart valve surgery), thoracic surgery (lung and chest procedures) and peripheral vascular surgery (aneurism repair and endarterectomies).

Our surgeons are active contributors to cardiovascular research, working with industry leaders to develop innovative technologies to improve patient care.

Our surgeons have active leadership roles in their national organizations and are on the editorial boards of prominent journals allowing them early access to the most recent developments in their field.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
