Detroit R&D, Inc. was founded in 1997 by Dr. Hyesook Kim as a company dedicated to building a relationship of trust with the research community, by providing the highest quality products through leading-edge technology. Detroit R&D specializes in environmental health-, hypertension- and cancer-related research, including biologically active eicosanoids such as EETs and DHETs, prostaglandin H synthases (PGHSs, also called cyclooxygenases, COXs), cytochromes P450 (CYPs), glutathione S-transferases (GSTs), oxidative stress, DNA damage, Xenopus microarray and wound healing.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
