Haemophilia caused by Factor VIII - or Factor IX deficiency and von Willebrand disease have long been possible to diagnose, but with some difficulties for the latter. In the mid 1970's Antithrombin III (ATIII) was suspected of being an important cause of thrombosis as patients with this deficiency often suffered from thrombotic complications and had a poor prognosis with Disseminated Intravascular Coagulation (DIC). Recent evidence suggests however that less than 5% of the thrombosis cases are due to hereditary ATIII deficiency.

In the 1980's - the fibrinolysis factors were associated with thrombosis. Low t-PA and high PAI-1 titers and defects appearing in the plasminogen molecule were connected with thrombotic diseases. Bleeding due to low antiplasmin levels was also reported. Here several defects were included but the frequency was more difficult to estimate but even including all defects the incidence of thrombosis was no higher than that for ATIII

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
