A Barcelona-based concern with links to world leaders in Lead Discovery Research and Development, DiverDrugs boasts collaborative agreements with outstanding research institutions in the European Union and the US. In addition to their many publications and patents the Scientific Board of Directors of DiverDrugs is aggressively engaged in the research, development and production of new moieties, and are actively seeking development partnerships for therapeutic targets currently being pursued. With state-of-the-art expertise in combinatorial chemistry and protein synthesis, DiverDrugs' capabilities include the design and synthesis of both general and biased libraries, the development and implementation of high throughput screening assays, and the synthesis, purification and characterisation of positive hits.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
