United Kingdom

DIVERSE has been designing optical and instrumentation systems since 1983. Based in Cambridge, England, our team has worked for many of the world's leading companies. In 1996 DIVERSE moved to larger offices and laboratories 5km south of the city of Cambridge.

The company's share holding is now privately held, after a successful buy back from the German company Polytec PI GmbH (trading as Lambda Photometrics Ltd in the UK). The group is a long established UK distributor of lasers, laser systems, fibre optics components and instrumentation for scientific, industrial, telecomms and medical applications. Apart from a small dividend, all profits are reinvested within the company. Diverse's revenues are around £300K per annum and those of Polytec are around \$50M. We have a core team of engineering staff and a large number of associates used to bring a variety of skills to our designs. Diverse does not manufacture in house, but does control small and medium volume manufacture both for its own products and for its commercial partners.

Press Releases on DIVERSE Technologies:

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months

old.
