Epitope Diagnostics will launch its innovative fecal sample-based rapid immunoassay test platform during the AACC meeting. This novel fecal sample test system is so user-friendly that it protects both the test performer and the environment and does not leak bad smells into the testing area. This test system is a closed, or nearly closed, fecal sampling and immunoassay system that allows the test procedure to be conducted without exposing stool samples into the testing environment. Fecal samples are the third most important laboratory test specimen, along with blood and urine. The most common fecal specimen based tests include the Fecal Occult Blood Test (FOBT), Rotavirus Antigen Test, Adenovirus Antigen Test, Giardia Lamblia Antigen Test, Cryptosporidian PAVUM Test, Amoeba Test and H. Pylori Test, etc. June 24, 2005. San Diego, California Epitope Diagnostics will exhibit at Clin Lab Expo during AACC's annual meeting at the Orange County Convention Center in Orlando, Florida. This will take place during July 25-28, 2005 and our booth number is 2636. We are currently looking for distributors from various countries.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
