Children's Hospital is the only hospital in East Tennessee dedicated exclusively to the care of children. For more than 65 years, Children's Hospital has provided excellent pediatric health care for children from birth to 21 years of age. Children's is certified by the state of Tennessee as the only Comprehensive Regional Pediatric Center in East Tennessee. This year children will make more than 136,000 visits to Children's Hospital. Because children are not just "miniature adults," but individuals with special medical needs, they deserve a specially trained staff. To meet their needs, Children's Hospital offers more pediatric subspecialties than any other hospital in the region.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
