GeneExpression Systems, Inc. is a biotech company that develops and markets differential gene profiling technology for down stream study of gene expression, regulation, diagnostic, predictive toxicology and therapeutic purposes. The company is situated in the Greater Boston area biotech hub and commercializes proprietary gene expression kits, services and technologies to accelerate and enhance the discovery of new markers. GeneExpression Systems is also a meeting organization institution in the cutting edge life-science industry that hosts international conferences on the topics of 'RNA interference', 'BioArrays', 'BioDefense', 'Bio-imaging', 'Nanobiotechnology' and 'Stem cell research'. We are the first to ignite the spirit of RNAi gathering in Boston and BioArrays meet in New York City. Our core competency is to educate the research community by bringing together the authorities from academia (including Nobel laureates and members of the national academy of sciences), biotech and large pharmaceutical sectors to maintain the motto of "Bridging Academia and Industry." In the past years we organized "RNAi-2003-Boston," "RNAi-2004-Boston," "RNAi-2005-Boston," "RNAi-2006-Boston," meetings on 'RNA interference: Biology to Drugs & Therapeutics', "BioArrays-2003-New York", BioArrays-2004-New York" meetings on 'Biochips Applications in Diagnostics,' "BioDefense-2004-Boston" meeting on 'Infection to inflammation and Immunity,' "Stem Cells & Regenerative Medicine-2006-San Francisco" Meeting on 'Molecular Embryology to Tissue Engineering & Therapeutics.' We are the first to innovate the concept of having a diverse panel discussion in each of our meetings with experts from academic, business, investment, intellectual property, science media firms, and strive to disseminate the knowledge.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
