Fish & Richardson P.C. is a national law firm with over 350 lawyers in ten offices: Atlanta, Austin, Boston, Dallas, Delaware, New York, San Diego, Silicon Valley, Twin Cities, and Washington, DC. The firm is one of the largest firms practicing intellectual property, litigation, and corporate law and the only firm with a truly national intellectual property practice. Founded in 1878, the firm represented Thomas Edison, Alexander Graham Bell, and the Wright Brothers. For 125 years we have served great innovators, helping to protect countless ideas, nurture discoveries, and bring new concepts to market. The firm prosecuted and litigated many of the fundamental patents of an industrialized America, serving corporations creating the cutting-edge technologies of the day: the telephone, the air-brake, the steam turbine, the automobile, and the radio. Frederick Fish, the firm's founder, was for many years the acknowledged leader of the patent bar of the entire country at a time when patents were more important than they had ever been. Today, the firm continues to represent great innovators working in cutting-edge technologies

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
