We have been in business as a registered company since 1994 under the name Allan Fuller, Analytical Instrument Sales. We were on the frontier of the Internet. My computer friends at the University of Maine introduced me to a beta copy of a windows program called Mosaic later to be called Netscape. It became quickly clear that the Internet was going to be a powerful marketing force for small companies. The FTIR.com domain name was registered with Network Solutions in April 1996 and we registered FTIR.com as a company name with the State of New Hampshire in May 1996. Traditional companies did not even know how to spell it. For the longest time, Dunn and Bradstreet spelled our company as FTIR dot Com. FTIR.com is located in the City of Nashua in the State of New Hampshire in the United States of America. The population of Nashua is about 85,000 people and is located in the center of the high tech region in Southern New Hampshire. Nashua is served by airports in Boston, MA (BOS, 40 miles to the southeast), Manchester, NH (MHT, 18 miles to the northeast), and a general aviation airport in Nashua (ASH) that accommodates single engine planes to corporate jets.

FTIR.com has their own airplane, which often provides more convenient and faster customer support than commercial airline travel.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
