Fundecitrus - Fund for Citrus Plant Protection, is an association of citrus producers and processors, whose object is plant sanitary defense. In addition to acting in monitoring activities, it aids the State Agriculture Department in the citrus canker eradication and performs and finances scientific research to discover forms to control and handle diseases and pests that affect citrus plantations.

Fundecitrus' first action was in 1977, assisting the National Campaign to Eradicate Citrus Canker (CANECC) of the Ministry of Agriculture. Identified in Brazil in 1957, in the Presidente Prudente (SP) region, the disease spread in the State of Sao Paulo citriculture region during 1979.

In 1984, to contain the disease's spreading of what at that time was considered the largest threat to Brazilian citriculture, Fundecitrus created the State Campaign to Prevent Citrus Canker (CEPRECC). With its own team of agronomists, it began to provide guidelines and instructions to producers on how to prevent the disease. In 1992, accredited by the Ministry of Agriculture, it assumed all the responsibilities to prevent and inspect citrus canker in São Paulo. In 1994, it was authorized to extend its operations to the South of the Triângulo Mineiro region, in the State of Minas Gerais.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
