GeneTel Laboratories provides quality research reagents, lab plastic wares, antibody products and high-throughput proteomic antibody production services to the global life science research and biotech as well as pharmaceutical industries. The company combines high quality custom services with large-scale generation of antibodies against deduced peptides of gene and gene segments from the genome projects. These antibodies can be used to study gene functions and to develop protein chips for high throughput screening of gene expression at the protein level. The company's products and services enable customers to accelerate the discovery and development of new drugs, diagnostic and agricultural applications.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
