Genra Systems, Inc. is a privately held biotechnology corporation that was founded in 1988. Focused solely on nucleic acid purification, Genra develops and markets manual and automated nucleic acid purification products that address the need for high quality nucleic acid, ease of use and increased throughput for clinical and clinical research laboratories.

When Dr. Ruth Shuman founded Genra, purifying nucleic acids was a slow, tedious process that mixed drudgery with toxicity: a frustrating means to an end. The coming molecular age needed new methods that were convenient, fast, reliable and non-toxic. Recognizing this need, Genra Systems has focused solely on nucleic acid purification—paving the way for molecular technologies in clinical and clinical research applications.

The Puregene® DNA Purification Kit was the first product developed and marketed by Genra Systems. Introduced in 1991, it has set the standard for purifying archival quality DNA with exceptional yields. The Puregene kit is the only purification product supported by real time ongoing stability studies, which have now passed the 11-year mark.

Genra has developed and markets other DNA and RNA purification products including Generation®, Purescript®, Autopure Is® and its newest product, Versagene™ RNA, which is being launched in December 2003. Generation DNA Purification Kits provide rapid and reliable DNA purification for small samples and are available in a variety of formats – Capture Column, Capture Plate, Capture Disk and Capture Card. The Purescript kit provides a non-toxic method for purifying RNA in a scalable, simple-to-use format. The Autopure Is instrument has revolutionized the way many high-throughput laboratories are processing samples, by purifying Puregene-quality DNA from whole blood samples of up to 10 ml. Additional sample types include packed cells and buffy coats, cultured cells, cell lysates and buccal cells. Genra Systems' newest product, Versagene RNA is a simple, yet effective, technology for isolating pure RNA from animal tissues, cultured cells or whole blood, and comes in a convenient easy-to-use format

Press Releases on Genra Systems, Inc.:

The Doctor Will See You Now. . .Online	24th November, 2009	Anthem Blue Cross and Blue Shield in Maine	<p><i>BREWER, Maine, Nov. 24 /PRNewswire/ -- Thanks to an innovative program recently developed between Eastern Maine Healthcare Systems (EMHS) and Anthem Blue Cross and Blue Shield in Maine, some Anthem</i></p>
SSL International plc Embraces TrackWise(R) Software for Global Quality and Compliance Efforts	24th November, 2009	Sparta Systems, Inc.	<p><i>HOLMDEL, N.J., Nov. 24 /PRNewswire/ -- Sparta Systems, Inc., the maker of TrackWise software and the market leader in enterprise quality and compliance solutions, today announced that SSL</i></p>
MinuteClinic Opens First Retail Clinic in Washington, D.C. at CVS/pharmacy Store in Northeast	24th November, 2009	MinuteClinic	<p><i>WASHINGTON, Nov. 24 /PRNewswire/ -- MinuteClinic, the pioneer and largest provider of retail-based health care in the United States, has opened its first retail health care center in Washington, D.C.</i></p>
MAQUET Cardiovascular Receives Guaranteed Two-Year Sole Source Contract From Novation for Beating Heart Surgical Devices	24th November, 2009	MAQUET Cardiovascular LLC	<p><i>WAYNE, N.J., Nov. 24 /PRNewswire/ -- MAQUET Cardiovascular LLC, a leading provider of cardiovascular technologies, announced today that it has signed a guaranteed two-year contract with Novation, one</i></p>
Wellcore to Introduce Consumer Technology Products that Promote Health and Wellness	24th November, 2009	Wellcore Corporation	<p><i>SAN JOSE, Calif., Nov. 24 /PRNewswire/ -- Wellcore Corporation, a Silicon Valley-based company dedicated to developing wireless products and services that promote wellness, safety and security, is</i></p>

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
