Founded in 1915, Helen Keller International (HKI) is among the oldest international nonprofit organizations devoted to fighting and treating preventable blindness and malnutrition. HKI is headquartered in New York City, and has programs in 25 countries around the world. HKI builds local capacity by establishing sustainable programs, and provides scientific and technical assistance and data to governments and international, regional, national and local organizations around the world.

**BioCorporate Profiles - upgrade to a full profile**

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
