Email: chemicalconference@hpa.org.uk

The public is increasingly anxious about the long term effects of exposure to chemical as well as the acute threat from chemical terrorism. In the drive for sustainable communities, the undoubted benefits to society of chemicals in manufacturing, industry, agriculture, food presentation, housing, products etc have to be balanced by the potential for harm. The conference This conference will focus on national and international developments in identifying the key threats to the health of the public, covering "Alert and Response" systems, environmental public health tracking of hazards, exposures and health effects, engaging with the public, assessing risk and giving advice. The conference will highlight current knowledge and gaps and will make challenging proposals for research and for developing interventions and strategies for sustainable communities, including what the public health workforce should look like in the 21st century. This meeting will be of interest to policy makers, environmental health and public health professionals, toxicologists as well as those professionals in allied agencies and organisations.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
