The Istituto Biochimico Italiano – IBI - founded in 1919 by Prof. Giovanni Lorenzini, is a pharmaceutical Company with a significant scientific tradition, present on the national and international markets since more than 80 years. Since 60 years the Company is managed by female managers. When the founder died, his daughter Loredana Lorenzini took over. She was the grandmother of the actual President Camilla Borghese, who is running the Company since the late 90ies.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
