Indian Immunologicals Ltd (IIL) is a wholly owned subsidiary of National Dairy Development Board, established in 1983. IIL's plant at Hyderabad is built in collaboration with Wellcome Foundation of U.K. In addition to Foot and Mouth Disease (FMD) vaccine under the flagship brand name "Raksha", IIL also produces a range of other veterinary vaccines such as anti-rabies vaccine, Thileriosis vaccine, Bacterial vaccines, Canine vaccines and a host of other combined vaccines. These vaccines were added over the years through constant effort in our research and development. IIL has grown substantially from 1996 onwards and today, it is the No.1 Veterinary biologicals in the country. IIL also markets full range of Animal health products. IIL is credited with the launch of Nimovet inj for Veterinary use. Nimovet is the first Non-steroidal anti-inflammatory drug developed in the world in injectable form for veterinary use. IIL's plant at Hyderabad is one of the largest FMD vaccines producing plant in the world and certified with WHO-GMP and ISO 9001 certifications. IIL is also one among the largest exporters of Veterinary Biologicals in Asia.

Recent Publications by Indian Immunologicals Limited:

- [Effect of FMD vaccine antigen payload on protection, sub-clinical infection and persistence following needle challenge in sheep.](#)
The relationship of Foot-and-Mouth Disease (FMD) virus antigen payload and... 10th November, 2009
FMDV Laboratory, Research and Development Centre, Indian Immunologicals- Comp Immunol Microbiol Infect Dis. 2009 Nov 5. ([DOI Direct Link](#))
- [Phylogenetic analysis of nucleoprotein gene of dog rabies virus isolates from Southern India.](#)
India like several other South East Asian and African countries continues... 7th November, 2009
Indian Immunologicals Limited, Gachibowli, Hyderabad 500 032, India.- Infect Genet Evol. 2009 Sep;9(5):976-82. Epub 2009 Apr 15. ([DOI Direct Link](#))
- [Prevalence of brucellosis and infectious bovine rhinotracheitis in organized dairy farms in India.](#)

This study was carried out to investigate the prevalence of bovine...1st August, 2009
R&D Centre, National Dairy Development Board, Indian Immunologicals Ltd.,- Trop Anim Health Prod.
2009 Aug 1. ([DOI Direct Link](#))

- [Genetic analysis of foot-and-mouth disease virus serotype A of Indian origin and detection of positive selection and recombination in leader protease-and capsid-coding regions.](#)
The leader protease (L pro) and capsid-coding sequences (P1) constitute...1st August, 2009
Research and Development Centre, Indian Immunologicals Limited,- J Biosci. 2009 Mar;34(1):85-101.
- [Construction of an infectious cDNA clone of foot-and-mouth disease virus type O 1 BFS 1860 and its use in the preparation of candidate vaccine.](#)
Foot-and-mouth disease virus (FMDV) serotype O is the most predominant...1st August, 2009
Indian Immunologicals Limited, Rakshapuram, Gachibowli, Hyderabad 500 032,- J Biosci. 2009 Mar;34(1):45-58.
- [Serological response in cattle immunized with inactivated oil and Algel adjuvant vaccines against infectious bovine rhinotracheitis.](#)
Infectious bovine rhinotracheitis (IBR) virus was grown in Madin Darby...29th July, 2009
Research and Development Centre, Indian Immunologicals Ltd. Gachibowli,- New Microbiol. 2009 Apr;32(2):135-41.
- [Serotyping of foot-and-mouth disease virus by antigen capture-ELISA using monoclonal antibodies and chicken IgY.](#)
Laboratory detection of specific foot-and-mouth disease virus (FMDV) is...25th February, 2009
Research and Development Centre, Indian Immunologicals Limited,- New Microbiol. 2008 Oct;31(4):549-54.
- [Experimental transmission of foot-and-mouth disease among Indian buffalo \(Bubalus bubalis\) and from buffalo to cattle.](#)
Indian buffalo and cattle were infected experimentally with a serotype O...19th November, 2008

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
