Since 1996, IP&MA has been assisting health care organizations and related industries prevent infectious and other adverse events. IP&MA's professionals have successfully worked with clients to:

Decrease the ventilator associated pneumonia rate in intensive care patients by 29%; providing a cost avoidance of over \$160,000 per year.

Lower the overall nosocomial infection rate for a long term acute care facility by 8.8% by achieving a 26% reduction in urinary tract infections and a 15% reduction in central line sepsis. Estimated cost avoidance \$60,000 per year.

Decrease antibiotic cost per patient day by 15%.

Develop programs that decrease liability from nosocomial infection and iatrogenic harm

Develop and implement consistent care practices to decrease risk of nosocomial infections

Have successful surveys and accreditations without costly re-engineering

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
