Providing integrated solutions for management, control and development, and business has been INTEQ's speciality since it offered its first integrated system for the Internet in 1997. INTEQ began its offerings with INTEQerp a solution suite that supports and optimizes business processes remotely by providing information and tools in a simple, agile, and integrated manner.

Experience and expertise acquired by developing ERP solutions forged the evolution of a new concept - INTEQengine. INTEQengine is a platform especially designed for enterprise application solutions that promote enhanced productivity aligned with cost reduction.

Today, INTEQ is involved in numerous areas such as: retail, industry (metal works, pharmaceutical, food products, textile, factoring, agriculture, cattle, paper and pulp, etc.), and civil engineering and construction to name a few. Our success is measured by customer satisfaction and loyalty shared by clients such as Sangati Berga, Cemag, Cialne, Serlares, C. Rolim Engenharia, Servtec, Isofarma, Cobap, Troller, Paralelas, CDMax, Jandaia, Camicado, Otoch.

Recent Publications by INTEQ:

- [Subculture on potato dextrose agar as a complement to the broth microdilution assay for *Malassezia pachydermatis*.](#)
The main aim of this study was to verify the efficacy of subculture on... 17th December, 2008

- [Higher incidence of *Malassezia pachydermatis* in the eyes of dogs with corneal ulcer than in healthy dogs.](#)

INTEQ Patents:

- 6187469- [High temperature solid state hollow cylindrical battery including a plurality of solid polymer electrolyte cell](#)
- 4384307- [Facsimile communications interface adapter](#)
- 4217624- [Communications interface adapter](#)

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
