The IVD (In Vitro Diagnostic) is the field in which each collaborator of the company is involved since many years. Our numerous experiences and time spent in several business areas (Private analysis, hospitals, in France or outside France, Diagnostic companies) make us knowing many opinion leaders and key people. This network is ready to act for you now. Created in 1997, the purpose of IVD is to offer to the company active in the Diagnostic field the flexibility they need more and more in this continuously changing international context. Instead of offering a lonely experience and knowledge, we have chosen to combine Technique, Science, Marketing and Sales at an international level to be a team quickly effective at the service of our customers.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
