When Michael Darder, M.D., and Susan Treiser, M.D., Ph.D. founded IVF New Jersey in 1990, their goal was to create an infertility practice that combined the best of big-city medicine with the personalized care of a private setting. Today IVFNJ is one of the largest facilities in the United States and continues to be at the forefront of IVF and egg donation technology, offering the latest in reproductive care. The Doctors at IVF NJ believe it is their hands-on approach that sets them apart from other clinics. The physicians at IVFNJ strive to provide the kindest of care: respectful, individualized, and compassionate. Questions are encouraged and thoughtfully answered. Each physician and nurse is always ready to listen with an open ear -and heart.

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core

information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
