Cryo-Save specializes in the isolation and storage of (adult) stem cells..Stem cells can be harvested from umbilical cord blood and also from mature bone marrow. In contrast to embryonic stem cells, which are ethically disputed, these cells are an excellent alternative for transplants.

Life-Sciences Group N.V. is a Dutch holding with affiliates and partnerships in twenty countries. The nominal capital amounts to more than five million Euros. Shareholders include an insurance company, Mercator NV, and a number of private investors.

We have a central laboratory in Brussels, Belgium, and a cooperation partner in Germany. From the different countries across Europe, the samples are transported to these laboratories and are carefully processed. We have extensive quality systems in place, GMP (Good Manufacturing Practice) in Germany, and NBN EN ISO 17025 in Belgium.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
