Now that scientists have mapped the human genome, new opportunities exist for developing drugs that exclusively target specific receptors associated with the symptoms and causes of a disease. Receptor-specific drugs provide a new model in drug discovery that can improve the state-of-the-art treatment for many serious and common disorders. Lundbeck Research USA uses this discovery model to pursue novel treatments for CNS diseases. Our talented scientists have achieved influential discoveries in genomics (the cloning of genes) and functional genomics (the identification of a given receptor's physiological function), making us a world leader in G Protein-Coupled Receptor (GPCR) discovery research.

As the Research Center of Excellence for Depression and Anxiety in the United States we support our parent company, H. Lundbeck A/S. A global company headquartered in Denmark, Lundbeck is a world leader in the development of pharmaceuticals for psychiatric and neurological disorders. Research and development efforts have recently resulted in the successful development of Cipralex® (escitalopram) – the first compound of the next-generation selective serotonin reuptake inhibitors (SSRIs).

The scientific expertise at Lundbeck Research USA will ensure the continuation of a rich pipeline of drug discovery candidates for H. Lundbeck A/S.

### Press Releases on Lundbeck Research USA, Inc.:

[Senate Poised to Advance Majority Leader Reid's Anti-Life Bill](#)

## BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
