Netherlands

The faculty of Medical Sciences of the University of Groningen is the second oldest medical faculty in The Netherlands. Like the university, it was established in 1614. Ever since the foundation of the Groningen University Hospital in 1797, hospital and faculty have been cooperating closely. The Faculty of Medical Sciences has two tasks: providing medical scientific education and carrying out medical scientific research. You can submit your questions and comments about this website to the webmasters by means of the comment form.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core

information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
