In 1923, Medical Economics magazine was created to help busy physicians cope with the business side of medicine, the nonclinical problems associated with running a private, office-based practice. Today, Medical Economics continues to live up to that challenge, and to its responsibility as the best-read journal in the physician marketplace: informing, educating, and assisting busy primary-care doctors. A magazine covering issues critical to all specialties, Medical Economics carries more original articles and departments than any other medical publication, conveying the advice of experts to help physicians manage their practices, deal with managed care, and run their financial affairs

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
