Medallion Laboratories is a division of General Mills and is located in Minneapolis, Minnesota. For over 31 years our staff of over 70 chemists and microbiologists have made us technical leaders in the food industry. Our scientists have been leaders in the development of the Fat by GC method for NLEA, Total Dietary Fiber (AOAC) and most recently the Dietary Fiber relevant assays; Inulin(AOAC 997.08), Polydextrose(AOAC 2000.11) and Fibersol(AOAC 2001.03). More than 3,000 companies have trusted Medallion's results. We excel in customer service, quality results and innovation.

BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
