Over the past forty years MIMS publications have evolved to meet the ever changing needs of Australia's health professionals. Humble beginnings as a monthly publication containing abbreviated product information in 1963, MIMS has become synonymous in Australia for product information. Accessible in print, online, via CD-Rom or on Palm Pilot, MIMS publications ensure you have the most up to date and accurate source of product information available and always at your finger tips. MIMS publications are independently published and edited by a dedicated team of 12 full time medical editors. Our editors are, as are our users medical professionals ranging from scientific backgrounds to pharmacists and general practitioners. BioCorporate Profiles - upgrade to a full profile

BioPortfolio's BioCorporate full profiles offers your organization the opportunity to increase internet traffic to your corporate web site and enhance awareness of your business, technology, products and services. BioCorporate profiles are dynamic and are updated weekly with new information sourced from core information resources: publications, clinical trials, patents and global news.

Why you should upgrade your BioPortfolio BioCorporate profile:

- the ability to amend and add information on products and services to your profile using a membership username and password
- the option to add a corporate logo
- the creation of high value URL links back to your organization's website which will improve search engine ranking - resulting in increased site traffic
- the option have your press releases published on BioPortfolio and distributed via our BioNewsCast service
- an enhanced BioCorporate profile will also improve your exposure on BioPortfolio's related service InDepth and GeneDB

The annual cost is \$995.00 for established organizations and \$495.00 for organizations less than 12 months old.
